

SANZID ZAMAN

STUDENT

'Explore the new world'

CAREER OBJECTIVE

I'm a motivated Computer Science student with a strong foundation in both front-end and back-end technologies. I'm skilled in Python, C/C++, and MySQL and am actively seeking a software development internship to apply my skills and contribute to real-world projects. I am eager to apply my problem-solving abilities and technical knowledge to a challenging internship role in software engineering or development.
